

Install the Tripkicks Browser Extension for Chrome for MAC OS

In an Apple environment, pushing the Tripkicks extension to user endpoints can be accomplished using most Mobile Device Management (MDM) systems.

For Chrome

Tripkicks' extension identifier is: bmpihmcncmjpdodlbbkhaoolmlmpbpc

The update URL is: <https://clients2.google.com/service/update2/crx>

For Edge

Tripkicks' extension identifier is: kiihlcigeigficdmeaiknihngcljabhb

The update URL is: <https://edge.microsoft.com/extensionwebstorebase/v1/crx>

General

Check your MDM's documentation (or reach out to their support team) to determine how your MDM can add an extension to the Chrome or Edge ExtensionInstallForceList.
